#### Board Member Testimonial

We first partnered with Beyond26 a few years ago when two job seekers, Will and Nick, joined our team at Weller truck parts. While I understood how our organization would be assisting these job seekers, I did not anticipate the profound impact they would have on our employees and our culture, reaching far beyond their job duties. They are an integral part of Weller Truck Parts team, bringing joy to every teammate they interact with.

As I grew more involved as a board member, I was surprised to learn about the size and potential reach of Beyond26. There are many job seekers and families that are and will be positively impacted by these job opportunities! When you embrace the possibilities, there are ways we can include job seekers in every aspect of business. To anyone that's considering partnering with Beyond26 you will not regret it! This partnership has been deeply transformational on both a personal and business level. I am happy to serve Beyond26 as a Board member and Treasurer.
